CityLab Summer Graduate Assistantship

CityLab

CityLab’s mission is to provide access to state-of-the-art biotechnology laboratory facilities and curriculum, unavailable to most school systems.

Squashbusters

Squashbusters’s mission is to challenge and nurture urban youth—as students, athletes, and citizens—so that they recognize and fulfill their fullest potential in life.

CityLab, in partnership with Squashbusters and the National Urban Squash Association, received a new NIH grant to improve STEM knowledge and interest by teaching middle/high school students and exercise physiology and biochemistry.
