

## Boston University Supplemental Retirement and Savings Plan and the Boston University Retirement Plan Investment Options Guide as of March 9, 2022

### Vanguard FTSE Social Index Fund Institutional Shares

Ticker: VFTNX

**Gross expense ratio:** 0.12% as of 12/17/2021

**Objective:** The investment seeks to track the performance of the FTSE4Good US Select Index that measures the investment return of large- and mid-capitalization stocks.

**Strategy:** The advisor employs an indexing investment approach designed to track the performance of the index. The index is composed of large- and mid-cap stocks of companies that are screened for certain environmental, social, and corporate governance (ESG) criteria by the index sponsor. The manager attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

**Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term redemption fee:** None

**Who may want to invest:** Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income; Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Additional Risk Information:** The Fund's social responsibility criteria will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid stocks that subsequently perform well. In addition, stocks that do not meet the social criteria could outperform those that do.

The FTSE4Good U.S. Select Index is composed of the stocks of companies that have been screened for certain social and environmental criteria by the index sponsor, which is independent of Vanguard.
