

Warren Rooftop Garden

Stella Dzialas & Sidney Hare

Project Overview

- Rooftop garden located on the patio at Warren Towers
 - Main goals: getting students involved in urban gardening, provide fresh produce to the community, increase sustainable practices on campus
- Pilot growing season in 2021
- Plans for 2022:
 - Expand production
 - Outreach events & campus integration
 - Food distribution

Boston University Sustainability

- Turns an unused space into a productive green space
- Increases pervious surfaces on campus
 - Water runoff
 - Reduce urban island heat effect
- Promotes sustainable agriculture
- Carbon intake - improved air quality
