

PurpleSpace

One step towards cleaner energy

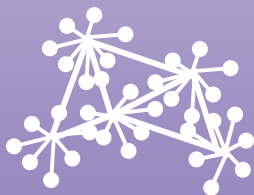

Problem Statement

An immediate need to shift to cleaner energy to benefit the climate.

The quest to reach net-zero carbon emissions by 2070.

To make energy transmission more efficient

OFF-GRID

Applying new strategy to decentralize distribution of energy for cheaper and efficient transmission

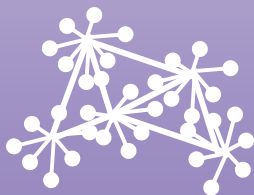

Problem Statement

Fighting Emissions:

Very less emissions of
GHGs & space
management

Building resilience for
BU and Boston
collectively

To make energy
transmission more
efficient

FOR BU

Applying new strategy to decentralize distribution of energy for cheaper and efficient transmission

Solution

Mechanical system relying on the stresses from the vehicles on the road

Free untapped source which can work as an energy reclaimer

Thanks!
