Kodak PlaySport (Zx3) HD Waterproof Pocket Video Camera

- Pocket Video Camera, 4x Digital, 5mp, Black

USB Microphone, Fifine Metal Condenser Recording Microphone for Laptop MAC or Windows Cardioid Studio Recording Vocals, Voice Overs, Streaming Broadcast and YouTube Videos-K669B

- Plug and play USB recording microphone with 5.9-Foot USB Cable included for computer PC laptop that connects directly to USB port for record music, computer singing or podcast. Easy to use and install on Mac or PC. (Not compatible with Xbox and Phones)

- Solid sturdy metal construction design computer microphone with stable tripod stand is convenient when you are doing voice overs or livestreams on YouTube.
- Recording microphone with additional volume knob itself has a louder output and is more sensitive, your voice would be heard well enough when skyping or voice recording.
- USB-powered design condenser microphone for recording no need the 48v Phantom power supply, work well with Cortana, Discord, voice chat and voice recognition.
- Cardioid polar pattern condenser microphone for computer captures your voice properly, produce clear smooth and crisp sound without static noise. Great for streamers at isolating the sounds from the main source and separating them from any background noise. Does the job well for streaming broadcast, OBS and teamspeak.
