

Mobile Download Instructions

1. Find the book you want to download and click on the link for **Online Access**. You will need to log in with your BU username and password.

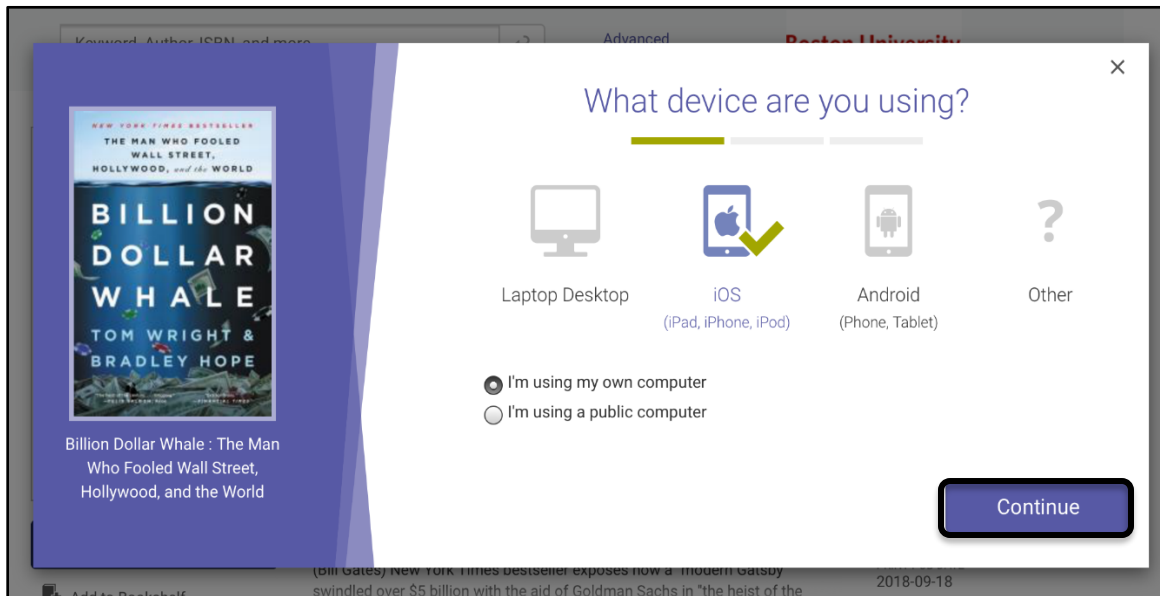

2. Click **Download Book** button located on the left side of the page.

NOTE: Some books will only allow you to download a chapter at a time, while others will allow you to download the entire book at once.

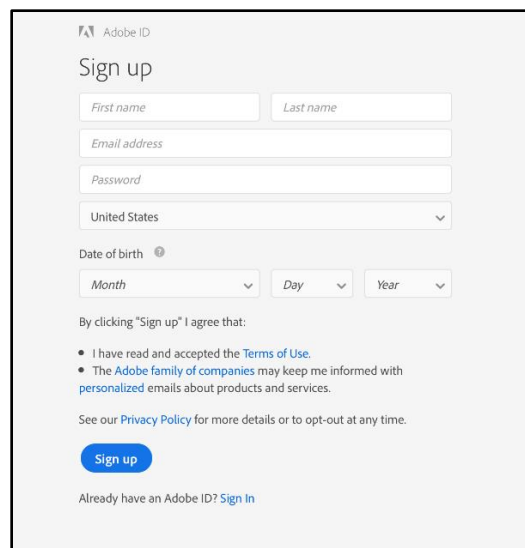

3. **The device that you are using will be automatically selected.** If it is not, click on the option for the type of device you are using. Select whether you are using your own computer or shared and click **Continue**.

The screenshot shows a dialog box titled "What device are you using?" with a close button (X) in the top right corner. On the left, there is a book cover for "BILLION DOLLAR WHALE" by TOM WRIGHT & BRADLEY HOPE. The main area of the dialog has four device options: "Laptop Desktop" (with a monitor icon), "iOS (iPad, iPhone, iPod)" (with an Apple logo icon and a green checkmark), "Android (Phone, Tablet)" (with an Android robot icon), and "Other" (with a question mark icon). Below these options are two radio buttons: "I'm using my own computer" (which is selected) and "I'm using a public computer". A blue "Continue" button is located at the bottom right of the dialog.

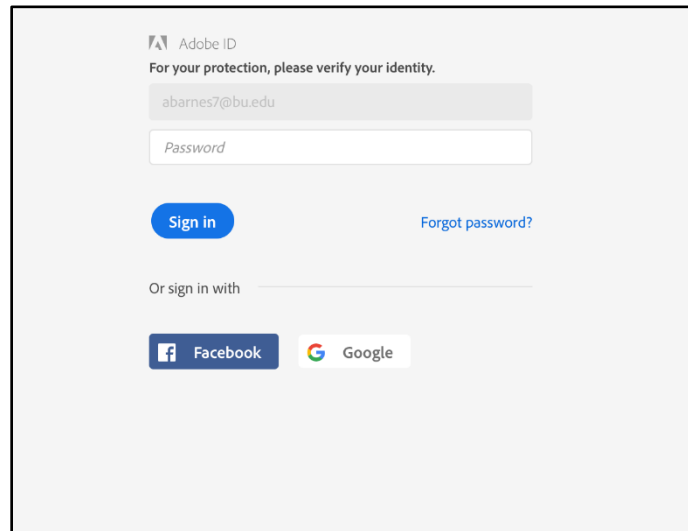

4. If you have not already done so, you will need to download a third party software such as the [Bluefire Reader](#) application in order to download ebooks onto your mobile device. This free software is different from Adobe Reader. If using an Android device, download [Adobe Digital Editions](#).

A free [Adobe ID](#) is also required to transfer an ebook to the mobile device. First you will need to sign up for the Adobe ID.

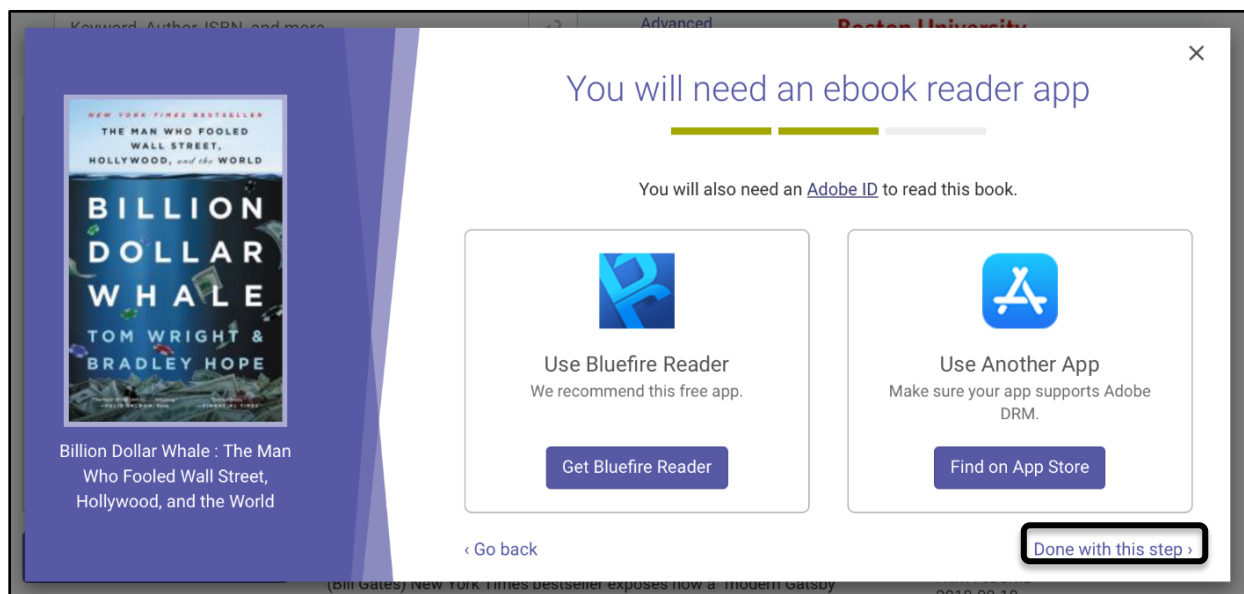

The screenshot shows the "Adobe ID Sign up" form. It includes input fields for "First name", "Last name", "Email address", and "Password". There is a dropdown menu for "United States" and a "Date of birth" section with dropdowns for "Month", "Day", and "Year". Below the form, there is a checkbox area with the text "By clicking 'Sign up' I agree that:" followed by two bullet points: "I have read and accepted the [Terms of Use](#)." and "The [Adobe family of companies](#) may keep me informed with [personalized](#) emails about products and services." There is also a link to "See our [Privacy Policy](#) for more details or to opt-out at any time." A blue "Sign up" button is at the bottom, and a link "Already have an Adobe ID? [Sign In](#)" is at the very bottom.

5. Then you will need to sign in, as seen in the image below. *Note: When signing in with your Adobe ID you will need to enter the **complete email address** you used when making the account.*

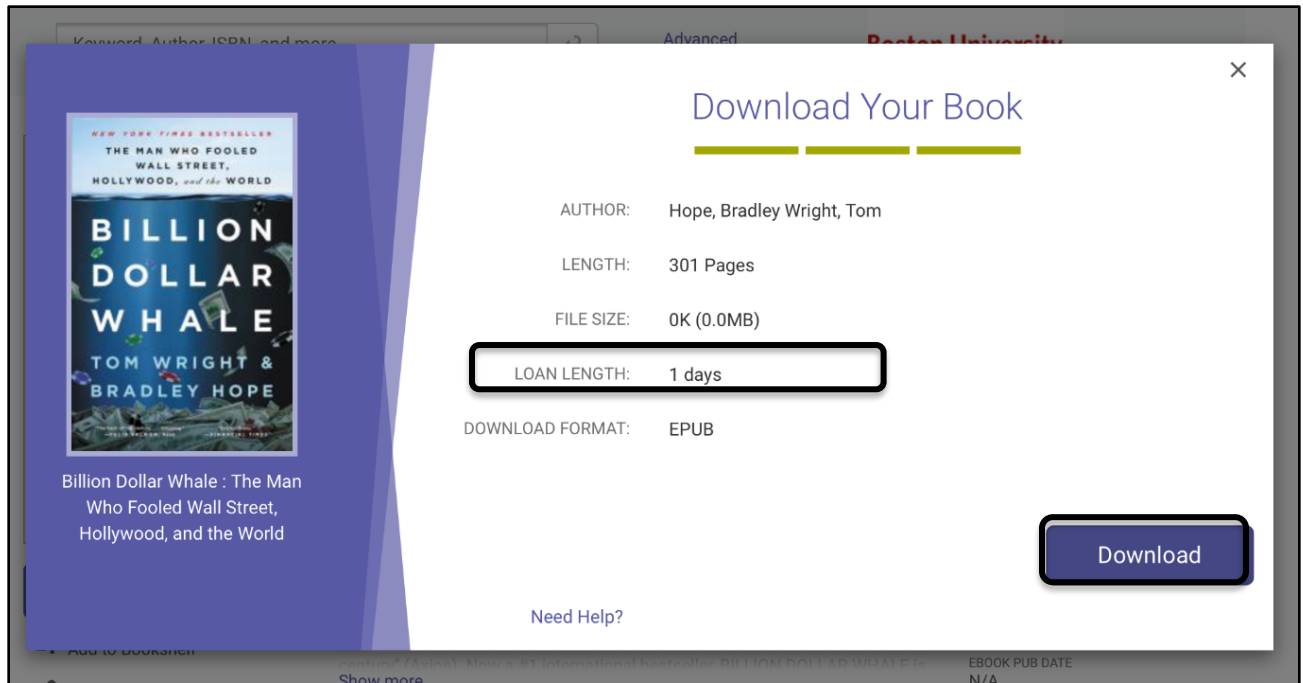

The image shows the Adobe ID sign-in interface. At the top, it says "Adobe ID" with a logo. Below that, a message reads: "For your protection, please verify your identity." There are two input fields: the first contains the email address "abarnes7@bu.edu" and the second is labeled "Password". Below the password field is a blue "Sign in" button. To the right of the button is a link that says "Forgot password?". Below these elements, it says "Or sign in with" followed by two buttons: "Facebook" with the Facebook logo and "Google" with the Google logo.

If you do have Bluefire Reader or Adobe Digital Editions on your mobile device, click the link labeled “**Done with this step.**”

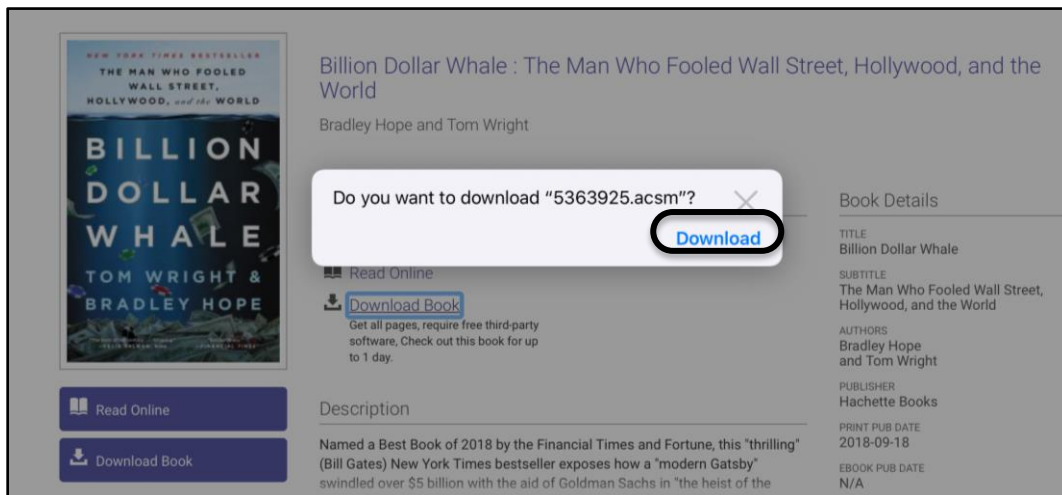

The image shows a screen from a web browser displaying a message about needing an ebook reader app. On the left, there is a book cover for "Billion Dollar Whale: The Man Who Fooled Wall Street, Hollywood, and the World" by Tom Wright & Bradley Hope. The main text on the right says "You will need an ebook reader app" with a progress bar. Below this, it says "You will also need an [Adobe ID](#) to read this book." There are two options presented in boxes: "Use Bluefire Reader" with the Bluefire Reader logo and a button "Get Bluefire Reader", and "Use Another App" with the Apple App Store logo and a button "Find on App Store". At the bottom right, there is a button labeled "Done with this step" which is highlighted with a red border. At the bottom left, there is a link "Go back".

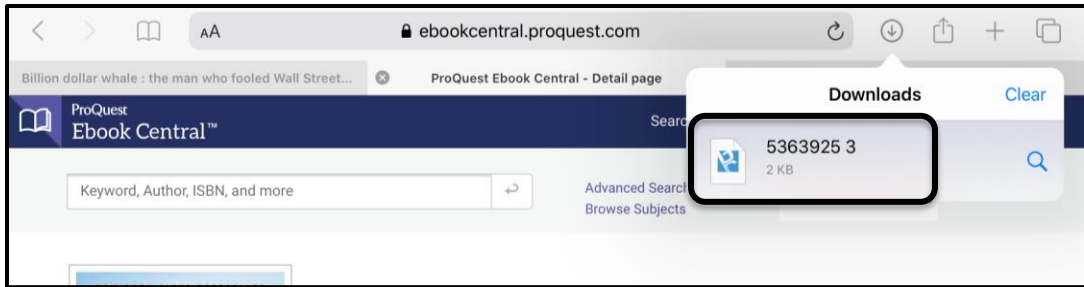

Now you will be able to select your **loan length** on the drop down. Click **Download**.

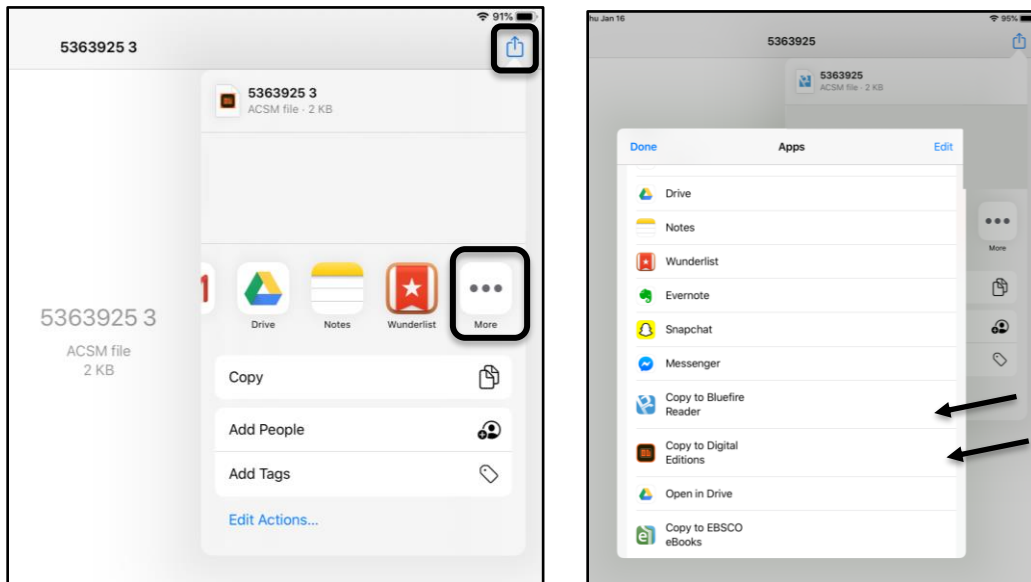

6. Select **Download** to start downloading the book onto your mobile device.

The file will now be located within the downloads folder. **Click on the file.**

This will open up a new page on your mobile device. In the upper right corner select the **Share** icon and then select **More**. Once within More you will be able to copy the file into an ebook reader application.

7. Now the Ebook will be available to read in the library of ebook reader on your mobile device.
