Community Liaison Committee (CLC)

National Emerging Infectious Diseases Laboratories (NEIDL)

APPLICATION TO THE COMMUNITY LIAISON COMMITTEE OF THE NATIONAL EMERGING INFECTIOUS DISEASE LABORATORIES

The National Emerging Infectious Disease Laboratories (NEIDL) is part of a national network of secure facilities that study infectious diseases which are, or have the potential to become major public health concerns. NEIDL researchers will perform cutting edge research on emerging or re-emerging infectious diseases and develop diagnostic tests, treatments and vaccines. The NEIDL complements the region's reputation as the hub of innovation and as a leader in biomedical research and life sciences.

The NEIDL is seeking applications from community members of Dorchester, Roxbury, South Boston and the South End to fill positions on its expanded Community Liaison Committee (CLC). The CLC serves as an outreach and feedback mechanism to facilitate communication and information flow between the NEIDL and the community and helps to ensure transparency in the operations and activities of the NEIDL. Chosen through an open, self-nominating process, CLC members meet monthly or as often as necessary. Members serve on a volunteer basis for staggered two-year terms.

Interested individuals are encouraged to submit an application via email, US Mail or fax to Valeda Britton, Executive Director, Community Relations, Boston University Medical Campus, Harrison Court, 761 Harrison Avenue, Boston, MA 02118 *Phone: 617-353-9095 *Fax: 617-353-2369 *Email: neidlclc@gmail.com. Applications can be downloaded at www.bu.edu/neidl.

All applications must be received by **5PM, Friday, JULY 27, 2012** to be considered.
