
Breakout 1: Monday 1:00pm – 5:00pm

Note: Timing and order of discussion topics may change

- 1:00 pm** **Introductions**
- Study requests and scheduling**
- Lead time?
 - What is needed for your requests?
- Decontamination**
- Related, decon time, are you always rotating, or do you have a full facility shut down for maintenance at some point in the year?
 - If you're shutdown, how do use that time?
 - CE, document maintenance
 - Work elsewhere in the facility, how to keep staff engaged, interested in returning to containment
 - Gas deconning cages in situ vs autoclave (if they don't fit)
 - Remove organic matter? Wet decon followed by gas decon? How to validate
- Lighting**
- How to address programming lighting if in vitro spaces are being used to house animals temporarily
- 4:00 pm** **Presentation: Biocontainment Animal Caretaker Training Program/Short Course - Carrie Hunt (RAV3N)**
- 5:00 pm** **Adjourn**
-

Breakout 2: Tuesday 9:30am – 12:00pm

Recurring topics (as time allows)

- 9:30 am** **New facilities or construction challenges**
- GNL BSL3 project
 - NEIDL BSL3 project
 - UAB
 - Ceiling replacement?
 - Others
- Staffing & Training**
- Recruiting
 - Engagement
 - Training, refreshers, avoiding drift for technical work
 - New schedules or incentives you've had success with?
- Ergonomics for biocontainment animal work**
- Equipment**
- Use of BioBubble in ABSL3/4
 - Imaging equipment, decon, primary containment/tubes where room can't be primary containment (e.g. Avian flu)
- Work Changes**
- COVID work slowing down? New vector-borne disease work? Any other new or upcoming work on the radar?
- 12:00 pm** **Adjourn**
