

# 2019 New England FLIM Workshop

**June 13, 2019**  
**Boston University**

Join us at the 2019 New England FLIM Workshop on Thursday, June 13 2019 at Boston University in Boston, MA. The event is organized by Boston Electronics Corporation of Brookline, MA and Becker & Hickl GmbH in Berlin, Germany, and Prof. David Boas, Boston University. This one-day workshop covers many facets of Time-Correlated Single Photon Counting applications of local users to exchange and connect with the community on the following topics:

- Time-Resolved Optical Techniques in Life Sciences
- Clinical FLIM Applications
- NADH Dynamics
- FRET, Protein Interaction
- FCS
- Fluorescence Anisotropy
- Transient Fluorescence Lifetime Effects
- Measurement of Molecular-Environment Parameters
- Oxygen Concentration in Cells and Tissue
- PLIM (Phosphorescence Lifetime Imaging)
