

**ANNISSA ESSAIBI-GEORGE
BOSTON CITY COUNCILOR
AT-LARGE**

August 15, 2018

Dear Students,

As a Boston City Councilor, elected in 2015, I am committed to investing in our City's future. Currently, I chair the Committee on Homelessness, Mental Health, and Recovery as well as the Committee on Education. I am proud to lead the Council in these committees.

In January 2018, I started my second term in office and I am currently searching for qualified college students and graduates who are interested in gaining hands-on experience in a political environment through full and part-time unpaid internships.

Internships allows students to actively observe the legislative process at the municipal level while participating in the administrative operations of political office. Intern responsibilities include: responding to constituent inquiries, attending hearings, researching legislative issues, and performing general office tasks.

If you are interested in an internship in my office, please email Nadine at nadine.jean@boston.gov with a copy of your resume, cover letter, two letters of recommendation, and a writing sample. The writing sample should be a 250 word draft letter to the editor on a current legislative/political issue. Preference will be given to applicants who are residents of Boston.

Sincerely,

Annissa Essaibi-George
Boston City Councilor At-Large
