

GOVERNMENT GRANT AND CONTRACT OUTSOURCED ACCOUNTING SOLUTIONS

MANAGING YOUR FINANCIAL INTERACTIONS WITH THE GOVERNMENT

When you receive government funding, you're not getting free money. The government expects you to meticulously track your spending in compliance with the Federal Acquisition Regulations (FAR) as well as your funding agency's supplemental regulations. Failure to maintain proper timekeeping processes, project cost reporting, and monitoring indirect cost rates can lead to a very expensive education!

Since 1978, Jameson & Company, CPAs has worked with clients from coast to coast to procure, manage and survive audits on over \$5,000,000,000 in government funding awards from all agencies, including NIH, DOD, DOE, and NSF.

We've created three levels of highly customizable solutions to meet your needs, so you can focus on developing your business.

ENTERPRISE
