POLICY

EMPLOYMENT

Boston University Family and Medical Leave Policy for Temporary Employees, Part-Time Faculty, and Former Employees

RESPONSIBLE OFFICE

Human Resources

Note: This Policy is effective on January 1, 2021

This Paid Family and Medical Leave Policy (“Policy”) describes the leave benefits that are available to eligible temporary employees, part-time faculty, and employees who have separated from employment with Boston University, pursuant to the University’s Paid Family and Medical Leave Law Policy and the Massachusetts Family and Medical Leave Law (the “Law”), M.G.L. c. 175M, § 1, *et seq*, and accompanying regulations.

Leave taken pursuant to this Policy shall run concurrently with leave taken under other Boston University leave policies, including the [Boston University Paid Family and Medical Leave Law Policy](#)

This Document is available at: <https://www.bu.edu/policies/boston-university-family-and-medical-leave-policy-for-temporary-employees-part-time-faculty-and-former-employees/>

and other applicable federal and state leave laws, including, but not limited to, the Massachusetts Earned Sick Time Law, M.G.L. c. 149, § 148C, and the Massachusetts Parental Leave Act, M.G.L. c. 149, § 105D, and accompanying regulations when the employee is eligible for both and leave is for a qualified reason under those laws. Further, leave associated with a qualifying reason under the Law taken pursuant to any other Boston University policy or collective bargaining agreement will count as leave taken under the Law regardless of whether the employee or former employee applies for benefits under this Policy.

Eligibility

Temporary employees and part-time faculty (“Eligible Employees”) are eligible to apply for benefits under this Policy if, over the previous 12 months, they have earned the minimum State published earnings requirement while working for the University or any other Massachusetts employer, and the amount of those earnings meets or exceeds 30 times the amount the employee would receive in benefits under the Law (the “Financial Eligibility Requirement”).

Former employees (“Former Employees”) of Boston University who met the Financial Eligibility Requirement at the time of their separation from employment from the University and have been separated from their employment from the University for not more than 26 weeks at the start of their family or medical leave may also apply for benefits for up to 26 weeks after separation of employment or until they have obtained other employment, whichever is sooner.

Definitions

- Child: A biological, adopted, or foster child, a stepchild or legal ward, a child to whom the employee stands *in loco parentis*, or a person to whom the employee stood *in loco parentis* when the person was a minor child, regardless of age or dependency status.
- Employee: Any person employed by the University on a full-time, part-time, temporary, or seasonal basis, excluding exempt student employees, H-2A visa holders, any employees who do not perform services in Massachusetts, and any other employees exempted under the Law.
- Family member: The spouse, domestic partner, child, parent, or parent of a spouse or domestic partner of the employee; a person who stood *in loco parentis* to the employee when the employee was a minor child; or a grandchild, grandparent or sibling of the

employee.

- Serious health condition: An illness, injury, impairment or physical or mental condition that involves in-patient care in a hospital, hospice or residential medical facility; or continuing treatment by a health care provider, as those terms are defined under the Law. The term “serious health condition” includes any period of incapacity due to pregnancy or for prenatal care. The term “serious health condition” does not include cosmetic treatments or substance abuse disorders unless inpatient hospital care is required or unless complications develop.
- Benefit Year: The 52-week period beginning on the Sunday immediately preceding the first day that the leave starts.

Types and Amounts of Leave

The types and amounts of paid Family and Medical Leave that are available under this Policy to Eligible Employees and Former Employees (together, “Eligible Individuals”) are as follows:

- 20 weeks of Medical Leave if an employee is unable to work due to their own serious health condition, including pregnancy and recovery from childbirth. In the case of multiple births, the duration of personal medical leave will depend on the birthing parent’s medical need but will not exceed 26 weeks.
- 12 weeks of Family Leave to provide care to a family member, including a child, with a serious health condition.
- 12 weeks of Family Leave to bond with a child during the first 12 months after the child’s birth, adoption, or foster care placement.
- 12 weeks of Family Leave for a qualifying exigency arising out of a family member’s current membership in the Armed Forces.
- 26 paid weeks of Family Leave in a benefit year to care for a family member who is or was a covered service member of the Armed Forces and who requires medical care as a result of an illness or injury related to the family member’s active service.

In each benefit year, the maximum amount of Family and/or Medical Leave that may be taken under this Policy is 26 weeks in the aggregate.

Subject to the above limits on the length of leave, paid Family and/or Medical Leave may be approved by the University on an intermittent or reduced leave schedule for the serious health condition of the employee, the serious health condition of an employee’s family member, to

care for a family member who is a covered service member, or for a qualifying exigency arising out of a family member's active duty or impending call to active duty in the Armed Forces. Intermittent leave may be taken in increments of one (1) hour. In the case of leave to bond with a child during the first twelve months after the child's birth, adoption, or foster care placement, a current employee may not take leave on an intermittent or reduced schedule basis unless permitted under another University policy.

Weekly Benefit Amount

For qualified leave under this Policy, an Eligible Individual is eligible to receive a minimum weekly benefit amount that is calculated as follows:

- The portion of an employee's average weekly wage that is equal to or less than 50 percent of the State average weekly wage will be replaced at a rate of 80 percent; and the portion of an employee's average weekly wage that is more than 50 percent of the State average weekly wage will be replaced at a rate of 50 percent.
- The maximum weekly benefit amount will be 64 percent of the State average weekly wage, as adjusted annually by the State.
- For an employee who takes leave on an intermittent or reduced schedule leave for any of the qualifying reasons set forth above, the weekly benefit will be reduced in direct proportion to the intermittent or reduced leave schedule.
- For an applicant whose work schedule varies from week to week, the minimum weekly benefit amount will be calculated based on the average number of hours worked in the two highest quarters of the twelve months preceding the application for benefits.

The University will continue to contribute to an employee's health and dental insurance benefits, if any, at the level and under the conditions coverage would have been provided if the employee had continued working continuously for the duration of Family and/or Medical Leave. This provision shall not apply to former employees. During the duration of the paid Family and/or Medical Leave period, employees are responsible for paying their portion of the insurance premiums.

Reduction in Benefits

The benefits paid to Eligible Individuals under this Policy will be reduced by the amount of

wages or wage replacement that the employee receives for that period from (a) any government program or law, including unemployment benefits, workers' compensation (other than for permanent partial disability incurred prior to the leave), (b) under other state or federal temporary or permanent disability benefits law, (c) a permanent disability policy or program of the University, or (d) unless the aggregate amount an Eligible Individual receives would exceed the Eligible Individual's average weekly wage, the weekly benefit amount for a period shall not be reduced by the amount of wage replacement that an Eligible Individual on Family and/or Medical Leave receives for that period from a University temporary disability policy or program, a paid family or medical leave policy of the University, or any wages received from another employer other than the University or through self-employment.

No paid leave benefits will be available to Eligible Individuals from the State-sponsored benefit plan administered by the Massachusetts Department of Family and Medical Leave while this Policy remains in effect.

Waiting Period

Benefits are payable after a waiting period of the first seven (7) calendar days of an approved leave under this Policy. Where the approved leave involves leave on an intermittent or reduced leave schedule, the wait period shall be seven consecutive calendar days, not the aggregate accumulation of seven days of leave. The initial seven-day waiting period for paid leave benefits will count against the total available period of leave in a benefit year. If an employee takes Medical Leave that is supported by documentation from a healthcare provider during pregnancy or recovery from childbirth and such leave is immediately followed by Family Leave to bond with a child, the seven-day waiting period shall not apply to the Family Leave.

Requests and Approvals

When leave under this Policy is foreseeable, a current employee must give thirty (30) days' notice to their supervisor and the Human Resources Service Center. When 30 days' notice is not possible for reasons beyond an employee's control, the current employee is required to contact their supervisor and the Human Resources Service Center as soon as practicable. Former employees must contact the Human Resources Service Center to initiate a request for Family and/or Medical Leave under this Policy.

All applications for benefits will require certification evidencing that the leave is for a qualifying reason. Information about applying for leave under this Policy is available through the University's Human Resource Service Center.

Return to Work

Prior to returning to work, employees on Medical Leave must be cleared to return by the Boston University Occupational Health Center by providing documentation from their health care provider that they are able to resume work. Any restrictions on an employee's return to work must be reviewed in advance by the Boston University Equal Opportunity Office as a request for reasonable accommodation.

Employees who are unable to return to work on the date scheduled must notify both their supervisor/manager and the Human Resources Service Center immediately. Employees who experience a change in relevant circumstances that would justify an extension, reduction or other modification of the period of leave or the amount of benefits must notify their supervisor/manager and the Human Resource Service Center within seven days of the change. Employees must provide information requested by the Human Resources Service Center to support any request for an extension or modification of leave, which may include a newly completed or updated certification.

A temporary employee or part-time faculty member who fails to perform work as scheduled may be subject to corrective action and an employee who fails to return to work by the expected return date may be considered to have resigned voluntarily from the University and will no longer receive leave benefits under this Policy.

An employee returning to work after taking Family and/or Medical Leave will be restored to their previous position or to an equivalent position, with the same status, pay, employment benefits, length-of-service credit and seniority as of the date of leave, except that the employee will not be entitled to any employment rights or benefits greater than those the employee would have had in the absence of taking such a leave.

Appeals

Employees may submit an internal appeal if Family or Medical Leave benefits are denied.

Information about the appeal process is available at <https://www.bu.edu/hr/paid-family-and-medical-leave/>.

Appeals must be submitted within ten days of the denial of a request for benefits, unless extended for circumstances beyond the employee's control. Employees will be informed in writing of the outcome of the internal appeal and of their rights under the Law and applicable regulations.

Employees also have a right to appeal to the Massachusetts Department of Family and Medical Leave. Employees are required to participate in the internal appeal process prior to exercising their right to appeal with the DMFL. The DFML may be contacted at MassPFML@Mass.gov.

Job Protection

The University prohibits discrimination and retaliation against an employee who takes leave pursuant to this Policy or who otherwise exercises rights provided for by the Law. Employees shall not be subject to retaliation or threats of retaliation for filing a complaint or instituting or causing to be instituted a proceeding under or related to the Law, or for testifying in an inquiry or proceeding or giving information connected to any inquiry or proceeding relating to the Law.

Nothing in this section shall limit the University's ability to reasonably communicate with an employee who is approved for leave benefits under this Policy. Similarly, this section shall not limit the obligation of employees who are approved for leave benefits.
