

SINGLE CASE RESEARCH DESIGN

An introductory, online educational workshop for occupational therapy students and practitioners

Cost: \$200 total

**JUNE 23 AND 30, 2025
12PM-4PM EST**

TWO SESSIONS

3.5 hours of live classroom learning on both of the session dates (June 23 and June 30, 2025), 12-4pm EST

WORLD-CLASS INSTRUCTION

Professor Thomas Kratochwill and Professor Joel Levin are leading experts in single case research design methods. Dr. Emily Rothman is an experienced teacher of evidence-based practice for OTD students.

DESIGNED FOR OT

This workshop is designed for professionals and students who are new to single case research design, but aspire to create evidence for the OT community.

CONTINUING EDUCATION

Boston University is approved to offer continuing education for this program by AOTA; 8 credit hours

OT EDUCATION THAT MATTERS

- Payment is due in full at the time of registration
- Requests for refunds must be submitted 10 days prior to the first class for a 100% refund. After this time, there are no refunds.
- Missing more than one hour of the live classroom session will result in a reduction in continuing education credits.
