Agency: NIH/NIMHD

Title: "Post-Maria Puerto Rican Families Relocated to Florida: A Multisite Study of Alcohol & Mental Health"

Our long-term goal is to assist Puerto Rican families in the aftermath of Hurricane Maria. A major part of this goal is identifying intervention strategies to prevent or offset alcohol misuse among adults and youth who went through the storm. We focus our efforts on alcohol misuse based on findings from our epidemiologic research indicating disconcerting levels of alcohol use among island-born Puerto Ricans prior to the storm and increases in alcohol misuse in response to trauma and migration-related stressors.

Total direct costs: \$2,394,595 (8/14/2019-4/30/2024)

Role: Principal Investigator

Agency: NIH/NIAAA

Title: "Preventing Alcohol and Other Drug Use and Violence among Latino Youth"

The social costs of adolescent substance use and violence are staggering. At present, however, our ability to effectively prevent substance use and violence among Latino youth is limited. The overall objectives of this study are to adapt a school-based, SAMSHA model substance use intervention to include a focus on violence prevention. This includes research and training in the areas of qualitative research, intervention adaptation, and prevention implementation and outcomes research.

Total direct cost: \$742,300 (9/1/2018-8/31/2023)

Role: Principal Investigator

R25 MH104660 (PI: J. Gallo)

Agency: NIH/NIMH

Title: "Mixed Methods Research Training Program for the Health Sciences"

The goal of this program is to provide a state-of-the-art methodology training to enhance the mixed methods skills of investigators. The program accepts 14 investigators per year who participate in a 3-day training program supplemented with webinars and other activities. The program matches participants with resource consultants across the United States. After matching, and following an introductory webinar on mixed methods, participants are provided an interactive 3-day summer course on mixed methods research.

Period: 03/01/2019-06/30/2020

Role: Scholar (Research Fellow)

PENDING RESEARCH SUPPORT

R01 Research Project Grant (PI: C. Lee)

Agency: NIH/NIAAA

Title: "Addressing Alcohol-Use Related Health Disparities: A Hybrid Effectiveness Implementation Study of a Culturally Adapted MI for Latinx Alcohol and Drug Users"

Objectives are to conduct a clinical effectiveness trial of culturally adapted motivational interviewing to reduce alcohol and drug misuse in a primary care setting with Latinxs and conduct a process evaluation of implementation.

Total direct costs: \$2,363,030

Role: Co-Investigator

Submission Date: October 4, 2019

Status: This application is IRG pending review.

Goal Two | Development and Innovation (PI: S. Schwartz)

Agency: Institute of Education Sciences

Title: "*Empoderar a Los Padres*: Developing a Program to Connect Latino Crisis Migrant Parents with Their Children's Schools"

The proposed study will involve designing and creating new intervention curricula, based in part on core elements of the IES-funded *Conexiones* program. Although we will preserve elements of *Conexiones*, our new program will also include content directed specifically toward adverse experiences and other needs of crisis-migrant families.

Total direct costs: \$1,400,000

Role: Co-Investigator

Submission Date: August 23, 2019

Status: This application is pending review.

R01 Research Project Grant

Agency: NIH/NICHHD (R01 HD098774 / R01 HD094572)

Title: "Venezuelan Youth in Diaspora: A Multisite Study of Crisis Migration and Cultural Stress"

The proposed study is oriented around two interrelated objectives. The first objective relates is to establish an evidence base on the migration-related experiences of Venezuelan immigrant youth and their families that can inform the generation of validated, culturally-tailored interventions. The second objective is to test the scope of cultural stress theory by comparing migration-related stress and youth outcomes among Venezuelan migrants to the US versus those in neighboring Colombia.

Total direct costs: \$2,436,632

Role: Principal Investigator

R01 HD098774-01: Submission Date: May 20, 2018 (Not Discussed)

R01 HD098774-01A1: Resubmission Date: March 5, 2019 (Impact Score = 40, Percentile = 38)

Status: This application will be submitted as new application in February 2020.

COMPLETED RESEARCH SUPPORT

Integrated Pilot Grant Program

Agency: NIH/NCATS (via UL1 TR001430)

Title: "Developing an Online AOD Training Program for Health Professions Educators"

The objectives of this pilot study are to: [1] adapt modules from our current training programs for an online format and [2] pilot test online modules with physician and social work faculty. Preliminary data will inform feasibility and proof of concept, and inform a full adaptation and outcomes test with physician and social work faculty.

Total direct cost: \$15,000 (09/01/2018-08/30/2019)

Role: Principal Investigator

KL2 TR001411

Agency: National Center for Advancing Translational Sciences (NIH)

Title: "Developing Collaborative Research Partnerships in Greater Boston"

With the support of the Boston University Clinical & Translational Science Institute, the objective of this KL2 Mentored Career Development Award is to support promising junior faculty translational researchers. The current project focuses on establishing collaborative research partnerships with Latino-focused youth organizations in Greater Boston with the long-term aim of developing a prevention program for substance use and violence among Latino adolescents.

Total direct costs: \$247,442 (9/1/2017-3/31/2019*) and \$83,500 (4/1/2017-8/30/2017);

Role: Principal Investigator

Submitted: February 10, 2017

* Dr. Salas-Wright relinquished KL2 Scholar Award upon receipt of K01 AA026645.

Early Stage Pilot Grants for Drug Abuse Research

Agency: NIH/NIDA (via R25 DA030310)

Title: "Addressing Cultural Stress among Venezuelan Immigrant Youth and Parents"

The objective of the proposed research is to gather preliminary data on recently-arrived Venezuelan adolescents and parents in the United States. In particular, we are interested in migration-related cultural stress and how this relates to drug/alcohol use and health risk behavior, well-being, and social context.

Total Direct Costs: \$30,000; Period: 10/1/2017-12/1/2017 and 06/01/2018-12/31/2018

Role: Principal Investigator

R25 DA030310 (PI: J. Anthony)

Agency: NIH/NIDA

Title: "Early Stage Mentoring for NIDA Research Program"

This mentoring program aims to expand and enhance research training opportunities for early-stage faculty investigators. This program complements the Interdisciplinary Research Training Institute (IRTI) on Hispanic Drug Abuse and provides mentoring for early career scientists already employed as faculty or research staff members of institutions that will sponsor their grant applications. Opportunities exist to develop grant applications and career development proposals, and support for pilot research and travel to scientific meetings.

Period: 07/01/2014-12/31/2018

Role: Research Fellow

Puerto Rico Recovery Project

Agency: RAND Corporation: Homeland Security Operational Analysis Center

Title: Puerto Rican Migrants in Florida in the Aftermath of Hurricane Maria

Conduct survey and focus group interviews with Puerto Ricans displaced to Orlando and Miami, Florida by Hurricane Maria. The aim of this project is to collect data that can inform the efforts of the RAND Corporation—in conjunction with the Federal Emergency Management Agency—in the initial and ongoing recovery plan for Puerto Ricans impacted by the Category 4 hurricane.

Total Costs: \$61,000; Period: 3/30/2018-5/15/2018

Role: Principal Investigator

Institute for Advanced Study of the Americas Research Group Grants (PI: S. Schwartz)

Agency: University of Miami

Title: "Storms and Migration: Stress, Mental Health, Service Needs, and Intervention Needs among Puerto Ricans Following Hurricane Maria"

The proposed pilot project is intended to provide feasibility data for a larger longitudinal study of Puerto Rican youth and their families following Hurricane Maria. Specifically, we aim to demonstrate that we can partner with Puerto Rican community leaders in Florida and in Puerto Rico to recruit post-Maria Puerto Rican families, and that scores on our survey instruments will be internally consistent.

Total direct costs: \$7500; Period: 01/10/2018-01/15/2019

Role: Co-Investigator

R25 AA021714

Agency: NIH/NIAAA

Title: "The Alcohol and Other Drugs Education Program (ADEP) for Social Work Faculty"

The long-term objective of the Alcohol Education program (ADEP) for Social Work Faculty is to promote the use of empirically-supported alcohol and other drugs (AOD) identification and treatment methods among social workers. This is in keeping with the NIAAA goal to promote the use of research to treat and prevent AOD abuse and dependence.

Total Costs: \$242,072; Period: 1/15/2017-1/2/2018

Role: Principal Investigator (1/2017-8/2017) / Consultant (9/2017-1/2018)

National Register Based Longitudinal Study

Agency: Umea University, Sweden

Title: "Examining the Effectiveness of Addiction Treatment Intervention"

Drawing from national register data, this study responds to the Swedish government's call for improved quality, knowledge and competence in substance use disorders (SUD) and SUD treatment through research and results dissemination. Dr. Salas-Wright served as principal investigator during the project's no cost extension between August and September, 2017.

Total direct costs: \$379,883; Period: 8/22/2017-9/30/2017

Role: Principal Investigator

Mental Health Research Grants

Agency: Hogg Foundation for Mental Health

Title: "Substance Use Prevention for Student Veterans Experiencing Psychological Distress"

The goal of this study is to adapt and pretest a preventative substance use intervention with college student veterans experiencing psychological distress at UT Austin.

Total direct costs: \$19,250; Period: 6/1/14-9/2/15

Role: Principal Investigator

Submitted: January 6, 2014

Pilot Research Grants

Agency: St. David's Center for Health Promotion & Disease Prevention Research

Title: "Examining Hispanic Adolescent Alcohol Use and Health-Risk Behavior: The Feasibility of a Biobehavioral Approach"

The goal of this study is to examine the feasibility of biobehavioral research with Hispanic adolescents recruited from a clinical setting. Additionally, we will pilot test use of biomarkers, including: resting heart rate (biomarker for low reactivity), 2:4 digit scan (biomarker for prenatal testosterone exposure), and hair samples (examining cortisol, testosterone, and exposure to heavy metals).

Total direct costs: \$25,000; Period: 1/1/14-09/01/15

Role: Principal Investigator

Submitted: October 14, 2014

R25 DA026401 (PI: A. Valdez)

Agency: NIH / NIDA

Title: "Interdisciplinary Research Training Institute on Hispanic Drug Abuse"

The Interdisciplinary Research Training Institute (IRTI) on Hispanic Drug Abuse promotes the career development of pre-doctoral, postdoctoral and early career clinically-focused scientists interested in conducting research as it affects the Hispanic population. The grant provided mentorship and training to early career scientists in the domains of publications, presentations, and federal funding for research.

Period: 06/01/13-06/01/14

Role: Research Training Fellow

Submitted: January 7, 2013

Agency: NIH / NIDA

Title: "Substance Abuse Intervention Outcome Research Training"

This training program addresses the significant and costly public health problem of substance abuse by training postdoctoral biomedical, biobehavioral, health care, and other public health scientists to conduct substance abuse intervention research. The training program draws on many scientific disciplines, including biological sciences, epidemiology, etiology, prevention, clinical, and public health research, and emphasizes multidisciplinary approaches to achieving innovations in substance abuse research.
