Boston University School of Social Work  
Off-Campus & Hybrid Programs (OCHP)  
CAPE COD CAMPUS COVID-19 PROTOCOL FOR STUDENTS  
August 31, 2022

Students, faculty, advisors and staff of the Off Campus and Hybrid programs are required to abide by COVID-19 vaccination and all public health protocols issued by the MA Department of Public Health, the Center for Disease Control (CDC), and by both Boston University and the specific Off-Campus/Hybrid site with which they are associated. Students with any COVID-related concerns, including vaccination compliance, should refer to the Student Health Services COVID-19 website or call 617-353-3575 with further questions.

➢ VACCINATION:  
All students, faculty, staff, and advisors are required to be vaccinated and boosted against COVID-19 (or have an approved medical or religious exemption). Medical information including vaccination status, is protected information. Only those who are compliant with the University’s vaccine requirements (or have received a medical or religious exemption or an extension) may attend in-person classes and activities. Students may be withdrawn from class and lose access to Blackboard and other BU resources if they have not uploaded proof of vaccine compliance or received an exemption.

  Vaccination Proof: Instructions on how to upload proof of vaccination/booster can be found on the Back2BU Vaccination Page
  Exemptions: Students may request a medical or religious exemption via the COVID Vaccine Exemption form at Student Health Connect Portal.

➢ COVID TESTING:  
Free testing is available and should be utilized if someone has symptoms or a known exposure to someone who tests positive. For info go to: [https://www.mass.gov/covid-19-testing](https://www.mass.gov/covid-19-testing)  
  • Local resources (healthcare provider, Board of Health, and free testing options) can provide guidance around the need to be tested or quarantined/isolated.

➢ SELF MONITORING:  
Please click on this link for the University’s guidelines for SELF MONITORING.

➢ MASKING GUIDANCE:  
Masks are optional but recommended while indoors. There are a variety of mask options available with N95s, KN95s, and KF94s offering the greatest level of protection. A comfortable and well-fitting mask that you are able to wear correctly and consistently is most important.

➢ QUARANTINING AND ISOLATION GUIDANCE:  
The Massachusetts Covid Protocols and the Boston University’s Quarantine & Isolation Protocols will guide you through the steps to take if you have symptoms, are a close contact or test positive.
**IF YOU ARE A CLOSE CONTACT**

- Close contacts who have received their booster shot and are asymptomatic are not required to quarantine.
- Regardless of vaccination or booster status, if you develop symptoms after being a close contact, you should schedule a test as soon as possible and minimize interactions with others. See additional protocols below for those who are symptomatic.
- If you test positive you must isolate, notify your healthcare provider, and return to class only after being cleared by your healthcare provider. The Boston University Student Health Services Office telephone (617)353-3575 [Student Health Services](mailto:) can also provide guidance on steps to take and whether you are cleared to return to class.

**IF YOU HAVE SYMPTOMS**

- Get tested as soon as possible. Do not attend class until you have your test results.
- If you test negative, consult your healthcare provider about whether to quarantine and re-test. If you are instructed to do so, do not come to class. Continue to consult with your healthcare provider until cleared to return to class. See below for instructions on missing class due to COVID symptoms or exposure.
- If you test positive, see instructions below.

**IF YOU TEST POSITIVE**

- Stay home for 5 days and isolate from others in your home. Wear a well-fitted mask if you must be around others in your home.
- If you did NOT have symptoms: **End isolation at least 5 full days** after your positive test. If you had symptoms: **End isolation after 5 full days** as long as you are fever-free for 24 hours (without the use of fever-reducing medication) and your symptoms are improving.
- If you were severely ill with COVID-19: You should isolate for at least 10 days and consult your healthcare provider about when you can resume normal activities.
- IN ALL CASES OF A POSITIVE TEST:
  - Wear a well-fitted mask for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a mask.
  - Avoid travel
  - Avoid being around people who are at high risk.

➢ **CONTACT TRACING:**
If infected with COVID-19, inform those with whom you were in contact that they were potentially exposed.

➢ **STUDENTS UNABLE TO ATTEND CLASS DUE TO COVID-19:**
Please inform your instructor and Program Director prior to class if unable to attend due to a need to quarantine or isolate. Your instructor will work with you on a case-by-case basis to determine the best way to manage the missed course content.

➢ **RETURNING TO CLASS AFTER COVID-RELATED ABSENCE:**
Students may return to class after following the recommendations of their medical provider, local Board of Health, and the host campus (when applicable) regarding the need to be tested and/or quarantine/isolate. Please continue to communicate with your instructor and Program Director regarding your absence.
CAPE COD COMMUNITY COLLEGE (CCCC) CAMPUS COVID-19
ADDITIONAL PROTOCOL
Campus Director - Deb Berglin (dberglin@bu.edu)

- Masks are not required but strongly encouraged while indoors.
- Students, staff, advisors, and faculty should frequently wash or sanitize hands. Hand sanitizer and antibacterial wipes are available in all classrooms. Additional supplies, including masks, are also available in the BUSSW office on the 2nd floor of the MM Wilkins building (rm 219A).
- Classrooms are cleaned and sanitized after each use.
- Classrooms are supplied with portable ventilation systems that should be turned on for the duration of class. Windows can also be opened in the classroom for ventilation.
- Physical distancing is encouraged at all times, when possible.
- Classroom space may not be changed without prior permission from the Director or Campus Security.
