Meningococcal Waiver is **ONLY** if you plan on waiving the requirement for the Meningococcal Vaccine. If you have received the vaccine, please ignore the waiver and proceed to the next page.

Waiver for Meningococcal Vaccination Requirement

I have received and reviewed the Meningococcal Information Form provided on the risks of meningococcal disease and the risks and benefits of meningococcal vaccine (available at www.bu.edu/shs/forms). I understand that Massachusetts' law requires newly enrolled full-time students at secondary schools, colleges and universities who are living in a dormitory or congregate living arrangement licensed or approved by the secondary school or postsecondary institution to receive meningococcal vaccinations, unless the students provide a signed waiver of the vaccination or otherwise qualify for one of the exemptions specified in the law.

Please check the appropriate box below.

After reviewing the materials above on the dangers of meningococcal disease, I choose to waive receipt of meningococcal vaccine.

-OR-

Due to the shortage of meningococcal vaccine, I was unable to be vaccinated, but wish to receive vaccine.

Tuberculosis (TB) Record

- | | | |
|--|-----|----|
| 1. Have you had a positive TB skin test in the past? | Yes | No |
| 2. To the best of your knowledge, have you had close contact with anyone who was sick with tuberculosis? | Yes | No |
| 3. Were you born in a high risk country?
(see CDC website for guidelines) | Yes | No |
| 4. Have you traveled or lived for more than one month in any of the high risk countries? | Yes | No |
| 5. Have you completed 6-9 months of medication (i.e. isoniazid) to prevent active tuberculosis (tuberculosis prophylaxis)? | Yes | No |

If you have a history of a positive tuberculosis skin test and have never taken medication to prevent active tuberculosis, please report to Student Health Services on arrival to campus to discuss this treatment.

If you answered YES to number 2, 3, or 4, you need to provide documentation of a recent tuberculosis skin test (TST) administered within the past year.

Tuberculosis skin test date _____ Result _____ mm Interpretation (check one) Pos Neg

If you previously received BCG vaccine, a blood test such as Quantiferon Gold or TSpot is the preferred test to indicate absence of TB.

Date _____ Result (check one) Pos Neg

If a current or past tuberculosis skin test is/was positive, you will need to complete the following evaluation /treatment.

Chest x-ray date _____ Result (check one) Pos Neg

Treatment:

Yes _____
(Drug, Dose, Frequency, and Dates)

No _____
(Please document reason prophylaxis or treatment not done)
