

## FLM: Academic Integrity Part 2

### In-Class Activity: Option 1

#### *Online Implementation*

You will now be put in a break-out room with a couple of other students. In your group, try to answer the following question:

**What will you do from now on to make sure your quotations, paraphrases, and summaries effectively blend sources with your own voice and avoid accidental plagiarism?**

Discuss strategies for avoiding plagiarism and summarize your findings in bullet points. It is recommended that you write down your ideas in a shared Google doc. You should also be ready to share your screen and show your notes to the whole class.
