

FLM: Acknowledgement and Response

In-Class Activity: Option 2

Online Implementation

Choose a draft you have in progress, and complete the steps below. You can either take your notes either in a Google doc or create a mind-map via Mindmeister or Mindomo.

1. Begin by stating your working thesis.
2. List four objections that you can imagine someone having to your argument, or that you are aware of in the scholarly conversation.
3. Choose, from your list of possible counterarguments, the two that are most likely to represent your readers' concerns, and explain why.
4. Finally, offer a substantial and thoughtful response to the two "best" objections you chose in (3).
