

FLM: The Scope of Research Questions and Conversations

In-Class Activity

Online Implementation

You will be put into a break-out room with one other student. Once in your break-out room, share your brainstorm from the online activity for Video 3. Next, work together as a team to bring each other further along in choosing and understanding a potential intellectual conversation to pursue. As you work together, please take notes - you can either type them in a shared Google doc, or you can create a simple mindmap using Mindomo or MindMeister. Be ready to share your ideas and share your screen with the class.
