

FLM: The Writing Process

In-Class Activity

Online Implementation

You will now be placed in a break-out room with one or two other students. Exchange the outline of the paper you submitted for Online Activity 2 by either sending the file to your partner(s) through the Zoom chat or email, or by sharing your Google doc. Next, conduct a peer review of the outline: Give one another feedback on the hierarchy of ideas and the general logic of the outline.

We will be completing this task in class.
