

FLM: Writing Arguments pt 2

In-Class Activity

Online Implementation

Your instructor will put you in a break-out room with a couple of other students.

In your team, review James Angelos' "Passing the Test," and fill out the **Elements of Argument Chart** worksheet. Please copy the worksheet into a shared Google doc that all of your team members can edit.

Next, work with your team members to find at least two examples (page ref.) of each element you discovered in the essay and add them to the worksheet.
