

Business Warehouse (BW) Quick Reference Guide: Grant Management Award Status

The GM Budget vs Actuals report uses the Characteristic **Award Status**. Complete award status definitions are provided on this page, which is maintained by Sponsored Research:

<https://www.bu.edu/researchsupport/project-lifecycle/managing-an-award/manage-an-award-faqs/>.

From the page:

All statuses were not created equal and no status is automatic. Additionally, statuses are assigned to a lifecycle status which is a grouping of statuses. The Business Warehouse (BW) only displays the status at the GRANT (50 or 55) level, not the Sponsored Program or Internal Order Level. Statuses can be applied at the Sponsored Program level in Quali but only at the grant level do the statuses carry through to the BW. **The only internal order statuses that have any meaning in SAP are Approved Award, Compliance Hold, Cancelled, and Closed.**
