Work Instruction
Create a Parked Journal Entry or Create a Parked Document (FV50)

Introduction

Process and Trigger

Use this procedure when you need to enter and park a Journal Entry or GL document. This procedure will be performed when a manual journal entry is required.

Prerequisites

- Department Submitter Role is required

Menu Path

Use the following menu path to begin this transaction:

- Department Submitter → FV50 Park G/L Account Items

Transaction Code

FV50

Tips and Tricks

- This work instruction illustrates how to park a journal entry, Save as Parked.
- Once initiator finalizes the journal entry by clicking Save as Complete, workflow will begin. The journal entry will appear in the Departmental approver's worklist.
- The Document Type field is defaulted not to display. To display the Document Type field, click on the Editing Options button and select document type ready for input. To view Work Instruction click here Editing Options Add Document Type Field.
- Service for Object is used primarily to attach documents and review workflow status.
- Department Submitter cannot be the Department approver.
- Additional toolbar options can be accessed by clicking on the More or Menu button.
- At times you may need to use your scroll bar to view additional information.

Reports

- FMRP_RFFMEP1AX - Display All Postings
- BW FM - Funds Management Reports
- BW GM - Grant Management Report

Procedure

1. Start the transaction using the above menu path or transaction code.

Park G/L Account Document: Company Code TRBU

2. As required, complete/review the following fields:

<table>
<thead>
<tr>
<th>Field</th>
<th>R/O/C</th>
<th>Description</th>
</tr>
</thead>
</table>
| Document Date | Required | Date that entry is initiated. There is flexibility with this date based on office procedure; however, best practice of entries is to keep the initiate date as listed.  
Example: 05/23/2016 |
| Reference     | Optional | Allows for further clarification of an entry by reference to other sources of information, either internal or external to SAP. Any SAP-posted document number can be used as a "reference" when entering a new document.  
Example: Correct GL Acct |
Park G/L Account Document: Company Code TRBU

3. As required, complete/review the following fields:

<table>
<thead>
<tr>
<th>Field</th>
<th>R/O/C</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doc.Header Text</td>
<td>Optional</td>
<td>This text does not post to any BW report but is useful for the initiator to find their entry. Any listed text will be applied to the whole document. Example: Adjustment to G/L Account</td>
</tr>
</tbody>
</table>

4. Click the Document Type field and select **SA**.

Most Commonly used Journal Entry Document Types

- **SA - G/L Account Document** - Standard, Non-grant journal entry - defaulted document type of Transaction FV50
- **ZJ - Grant Non-Cost Transfer** - Not considered a Cost Transfer. Used to reclassify an expense recovery or move from one GL Account Number to another on the SAME SAP grant.
- **ZK - Grant Cost Transfer** - Moving a cost from a department to a grant or moving a charge across two grants. ZK is governed by the Cost Transfer Policy: [http://www.bu.edu/cfo/post-award-financial-operations/resources/cost-transfers/](http://www.bu.edu/cfo/post-award-financial-operations/resources/cost-transfers/).
- **ZV - Grant Cost Transfer Over 90 Days** - Cost transfer over 90 days that needs to be moved from a department to a grant or moving a charge across two grants.

The system defaults field "Document Type field is hidden", for more information go to [13 Add Document Type Field (FV50)](http://example.com) document or to access the Quick Reference Guide go to [QRG Editing Options FV50 Document Type & Display period fields](http://example.com).

15. As required, complete/review the following fields:

<table>
<thead>
<tr>
<th>Field</th>
<th>R/O/C</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost center (For Line 2)</td>
<td>Required</td>
<td>An organizational unit or activity within a controlling area that represents a clearly delimited location where revenue and costs occur. Organizational divisions can be based on functional requirements, allocation criteria, physical location and/or responsibility for costs. Example: 1202020000</td>
</tr>
</tbody>
</table>
16. Click the **Simulate** button to verify that your entry is correct.

**Document Overview**

17. Click the **Back** button to display the document entry.
Click the green check mark box to return to the pervious screen.

System message: “Automatically created line items will be deleted” means the document entry view will be deleted.

Park G/L Account Document: Company Code TRBU (Basic data)
18. Click the **Save parked document** button to save your entry.

![Image of Park G/L Account Document: Company Code](image)

19. The transaction is complete.

The system displays the message, "Document 1002012281 TRBU was parked".

**Note:** The document has been **Saved** and is available to the creator of the entry through the “**Tree On**” function in your **Parked** folder.

The entry can also be searched using transaction code **FBV3 – Display Parked Document**. Click on the **Document List** button then enter User Id in the **Entered by** field.
Results and Next Steps

You have successfully created and parked a journal entry document.

To start the approval process go to transaction code **FBV2 – Change Parked Document** and click on **Save as Complete** button to initiate workflow.
